

## GEOGRAPHY

As far as landscape is concerned, Croatia is full of picturesque contrasts which originate from karstic phenomena and sea activities. High lime mountain ranges adjoin the sea. However, the greatest attraction for tourists is the Adriatic Coast with thousands of islands, islets, peninsulas, bays and bare rocks rising above sea level. One of the most picturesque places at the coast is the Kornati Archipelago situated not far from Murter Island which is linked with mainland by a drawbridge. Our diving centre is on Murter Island in Jezera town.

## diving attractions

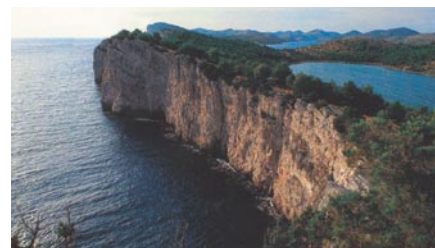

Our diving centre is open from May to the end of September. Touristic diving is, in most cases, offered in „pack of 10 divers in 5 days“. Additionally, you can buy night-time diving from the shore, or even more attractive from the boat. We offer divers in underwater canyons, ridges and safe caves. Under water you can see not only the remains of amphoras, beautiful walls and caves covered with colorful spongia, gorgonias and corals, but also a lot of species of fish, octopuses, crabs and spiny lobsters. There are a few wrecks as well. Two of them are situated at a depth accessible for advanced divers.

Apart from touristic diving we also offer weekly courses for beginners and those who already have diving degrees and want to raise their qualifications.

Courses in CMAS and PADI systems are organized by qualified Polish instructors.

There are the following at your disposal in our centre:

- 2 fully-equipped motor boats, oxygen, echometer, GPS, UKF, kitchen, WC, cabin, life-raft, night lighting, licence to the sea transport of people (12 meters long boat for 12-15 divers and 10 meters long boat for 10-12 divers)
- steel tanks 10, 12 and 15 litre, ballast
- compressor for filling tanks with air
- transport cars: pickup, bus
- lecture hall with audiovisual equipment
- phone, internet

The island is situated near many historically interesting places of Croatia: Sibenik, Trogir, Split. Moreover, there are National Parks here: waterfalls of the Krk River, Kornati Archipelago, Paklenica Ravine, Plitvice Lakes.

## ACCOMODATION

We offer accomodation in high-standard private apartments (2, 4, 6 – persons; each apt with kitchen annex and bathroom) and 2, 4 person rooms, or you can stay at the camping-site with your own tents. The apartments are situated in Jezera town, 100-500 m from the beach, and 500-1500 m from our diving centre.

Food in a restaurant, at host's, or in your own individual capacity.
